

Gemini 2

Advance LED Lighting Solutions new Gemini 2 emergency twinspace offers a simple and effective solution to provide emergency lighting to areas where a ceiling mounted luminaire isn't an option. The Gemini 2 is a self-test unit, and comes with an IP65 rating, NiCd batteries and cast aluminium heads with polycarbonate lenses. The Gemini 2 also offers a mounting solution where the fixing screws pass through the lid-fixing apertures. These are outside the lid gasket so the IP65 rating will not be compromised.
