

Columns

Advance LED Lighting Solutions range of columns supports the catalogue of floodlights, road lanterns and post top amenity luminaires.

Columns heights of 4 to 8 metres are available with other lengths available on request. All our columns are hot dipped zinc galvanised in accordance with BSEN 1461:2009 and welded in accordance with BSEN1011.

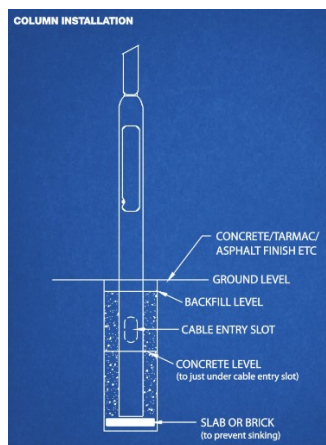

Key features

- Popular range of 4 to 8 metre columns readily available
- Hot dip galvanised finish
- 25 year life expectancy
- Full range of supporting bracketry
- Suitable for floodlights, road lanterns or amenity post top fittings
- Delivery straight to site.

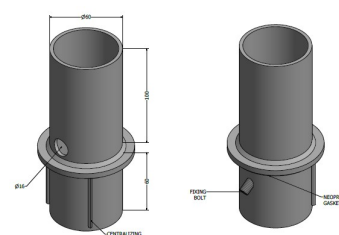

Order Guide

Code	Height (mm)	Shaft diameter (mm)	Max headload (Kg)*	Max headload (m²)*	Model	Base Dimensions (mm)	
						Diameter	Depth
COL4M76	4000	76	70	0.74	4 metre rooted column	140	800
COL5M76	5000	76	60	0.6	5 metre rooted column	140	800
COL6M76	6000	76	38	0.38	6 metre rooted column	140	1000
COL8M89	7700	89	30	0.32	8 metre rooted column	168	1200
COLSPIGOT01					Internal 76 to 60mm adaptor		

*Note: max headload and wind area based on terrain category II and wind loading region medium
